SUMMARY

My passion for web technologies has shaped my career. I have crafted digital solutions for wonderful clients, household brands and world-class organizations. I take great pride in crafting clean, maintainable, highly readable and reusable code. With strong development skills, a formal education in Visual Communications and a passion for interaction design, I have the ability to uphold art direction and invigorate life into projects using technology. I love what I do, enjoy sharing my experience and learning from those I work with.

EXPERIENCE

270 Strategies - Sr. Web Developer

Chicago, IL — 2/15 - Present

At 270 Strategies I've used my experience to oversee the development cycle for a handful of client websites, ensuring "presidential quality" standards are achieved. I've helped 270 develop an optimized and consistent internal multi-tenant environment for a variety of technical approaches (using Wordpress, AWS, CRM toolsets, CI workflow, and more). Additionally I lead the development of 270's website using Python and Django.

Organizing For Action - Web Developer

Chicago, IL — 4/13 - Present

Using my web development skills, I've made an impact at the grassroots movement that formed from Obama's reelection campaign. Collaborating with the Digital Web and Design teams at OFA's headquarters I help to fulfill the day-to-day rapid-response needs of the organization as well as contribute to the conception and production of short term and long term digital projects. Using tech such as JS, HTML5, Bootstrap 3, Grunt and Python + Django, I've set the organizations UI web standards, contributed to the development of web applications and have participated in re-launching barackobama.com, twice.

Obama For America 2012 - UI/UX Web Engineer

Chicago, IL — 9/12 - 11/12

Working within the engineering team at the Obama for America headquarters I've helped to re-elect a president using my web engineering skills. Participating in the Agile software development workflow I was part of the effort to prepare Dashboard for election day. My role included IA/UX direction and UI development using HTML5, CSS3 and Javascript as well as ROR3. In addition I participated in GOTV in the days leading up to the election.

Cuban Council - Sr. Web Developer

Chicago, IL — 8/09 - 8/12

At Cuban Council I work closely with remote clients and teams to prototype, define, and execute website projects to strict company standards, as well as industry standards. I provide senior level

interactive development solutions for world-class clients using technologies that include HTML5, CSS3, jQuery, PHP (Kohana, Codeigniter and various other MVC frameworks) and Python (mostly Django). Some projects that I have played a significant role in include:

- davines.com
- bungalux.com
- coppolaresorts.com
- theamericanfilmcompany.com

Freelance - Web Developer and Designer

Chicago, IL — 5/05 - Present

Over the years I have independently driven a number of large and small projects. Working directly with clients to outline and complete projects to my own strict standards, I've used a variety of technologies and crafted a variety of solutions - Here are several website projects:

- hufworldwide.com
- theticketrumba.com
- freefrank.org

Design Kitchen - UI Developer

Chicago, IL — 5/08 - 4/09

I worked within a small team to produce websites for established brands, providing expert knowledge of user interaction and related technologies. I participated in creating company UI production standards as well as serving a key role in producing a digital presence for a number of great brands.

- motorola.com/business
- craftsman.com

Pixel (Leo Burnett) - Interactive Developer

Chicago, IL — 6/06 - 5/08

As a developer at Pixel, I produced an array of dynamic brand oriented websites and banners, and used my expert knowledge of interactive technologies and trends to contribute to the technical and creative development of many digital marketing campaigns.
